What is “Play with a Plan”?

Play with a Plan™ is simple. The idea is for skilled and passionate Student Athletes to receive, and focus on, the academic and athletic training that develops the skills and attitude they need to earn a baseball scholarship to post secondary education in the United States and Canada.

Many players, and parents, see themselves – or their son – as the next MLB great. Your Player may be great. Your Player may even have skills that are head and shoulders above his peers. In reality, are those skills good enough to take him to the MLB? No one can answer that with certainty; however, what would your answer be if the question was, “...is your Player good enough to go to College or University on a Baseball Scholarship?”

In 2008, USA Baseball estimated that there were over 12 million players registered in minor baseball. That means that there is a lot of competition out there. Are you the top 1%? Or even in the top 10%? Even if you are, there are only 750 MLB players on 30 teams each year. As a small number of “new” players join the major league teams and many more enter the farm systems, the odds are still significantly challenging.

The Oakville Royals recognizes that many players aspire to play in the “Big’s”; however, the Play with a Plan™ program focuses on a more realistic – and we believe, more important – goal; the goal of playing baseball and getting a post-secondary education. That goal can be achieved when the Player is skilled, focused, and passionate with the academic and athletic credentials that are going to make them look good to College and University Coaches in the United States and Canada.

The onus will be on the Player to learn, practice, work, and produce; however, the Oakville Royals “Play with a Plan™” Program will provide the blueprint for success.

What’s your plan?
